

# —\ DevOps Architect

**Evens SOLIGNAC**

France

[evens@evens.link](mailto:evens@evens.link)

## —\ Fonctions

**2022**

### **Besedo — Lead DevOps engineer**

Leadership and mentoring skills to guide and support the DevOps team.

*Transition from managing IT operations alone to building and supervising a dedicated team.*

*Recruitment, training and supervision of 2 employees, promoting team growth and knowledge sharing.*

**2019 – 2021**

### **Besedo — DevOps engineer**

Designing, maintaining, optimizing, and ensuring high availability of high-traffic infrastructures (~500rq/s).

*Responsible for the design, deployment and optimization of 3 infrastructures.*

Supporting development and data science teams.

Developed and monitored incident response plans, actively participated in incident resolution.

Expertise in defining and managing infrastructure using Infrastructure as Code (IaC) principles.

*Implementing automation and industrialization techniques for services.*

*Managing deployments/development (software, microservices, machine learning services).*

*Continuously improving and optimizing existing processes and systems (efficiency and reliability).*

**2016**

### **Freelance — Computer system and software consultancy**

Design and deployment of infrastructures.

*Projects: Nostrum Care, Ma Web Mutuelle*

IT audit and consulting.

Deployment, management, and maintenance of IAAS (Infrastructure as a service).

**2015 – 2018**

### **Epiconcept — System network administrator**

Administration of production systems and networks.

Management of the IT infrastructure for ~70 employees.

Deployment, management, and maintenance of virtualization systems.

Orchestration and deployment of services and software.

Maintenance of proprietary network equipment.

## —\ Training

**2018**

### **Master degree (RNCP1) — ESTIAM Digital Médias**

Architecture of media solutions for content delivery

Training partnership at the National Audiovisual Institute - France (INA)

## —\ Skills & Add-ons

**Soft**

Team leadership, adaptability, problem-solving, autonomous, organized and rigorous.

**OS**

**Linux**, OSX

**Databases**

**PostgreSQL**, MariaDB, MongoDB, Redis, Vault

**Containerization** **Docker**, **Kubernetes**

**Networking**

**IPSec**, **OpenVPN**, CDN

**IaC**

**Ansible**, **Terraform**, Jenkins, Gitlab

**Monitoring**

**Opensearch**, **vector.dev**, Prometheus, Grafana, ELK

**Cloud**

**Amazon Web Services** (EKS, Opensearch, EC2, SQS, SNS, S3, DynamoDB, Cloudfront, VPC, KMS, Billing)

**Languages**

English (C2), Spanish (B1)

**Add-ons**

Driving licenses (A) (B)

**Leisure**

New technologies, fashion, sport, movies, travelling
